Dear Dr. Hashim:

You probably do not recollect me. We briefly met in San Francisco during the IBC USA Inc. meeting on "Cell Adhesion Molecule" a fortnight ago. At that time you mentioned that your institute entertains applications for research grants. I would be interested in getting further information on the possibility of obtaining some funding for the project enclosed herein. Since this is an unfunded project at present, even if the whole amount is not available, any decent financial support in the order of $50,000 to 100,000 would enable us to obtain considerable preliminary data. This will enable us to approach other national and international granting agencies for major support. Therefore, your help at this time would be critical for the progress of the project, which we think is a very important one.

After hearing from you I shall forward a formal grant application with complete curriculum vitae and any other required information.

Kind regards.

Yours sincerely,

R. Rajaraman, Ph.D.
